14 March 2018

Dear Parents and Carers,

We have changed the format of our online parent survey. We are going to use Parent View, an online facility launched by Ofsted. Parent View, like our previous online survey, gives you the opportunity to give your views about our school at any time during the school year. The questionnaire will be the way that school leaders and Ofsted inspectors collect parents' views about our school at the time of an inspection.

How to register on Parent View

To register on the Parent View site, you must first enter an email address and confirm that you are a parent or carer. You will also be asked to clarify how many schools your children are attending (for parents with children at different schools). An email will be sent to your email address to verify your account. Once verified, you will then select a secure password for your account.

The Ofsted website (www.ofsted.gov.uk) has a brief introductory video demonstrating Parent View to show users how to register and complete the questionnaire.

Parent View questions

Once your login has been activated, you can follow the instructions on the screen and indicate whether you strongly agree, agree, disagree, strongly disagree or don't know in response to 11 short statements. Question 12 asks whether you would recommend our school to other parents.

How results are displayed

When a minimum of 10 responses are received, the results will be available on the website for schools, parents/carers and the general public to view. Data will be displayed in percentages and in easy-to-understand graphs.

When can parents complete Parent View

Parent View can be completed at any time during the year. If you update your responses more than once in an academic year, your previous results will be overwritten so that only one 'view' for each parent is held. When a school is inspected, parents are also notified about the inspection and invited to complete the Parent View questionnaire.

We look forward to reading your views about our school. Please speak to the office if you have any questions about Parent View.

Yours sincerely,

Mr W Pedro

Head Teacher
