

Science- Light

Science – Light and Dark

In Science, we are going to look at how we see things based on sources of light.

Can you remember what surfaces reflect light? Shine a torch on different surfaces and make a list of materials that reflect light.

English – Roman Diary – The Journal of Iliona

We will be reading a book about a young Roman slave and her life events as recorded. The children will re-create a diary entry as Iliona, as well as research Gladiators to write a leaflet.

Can you research leaflets and create one on any topic you find interesting?

Computing – Animation

We will be creating short films using animation programmes in Computing lessons. Could you create a short film using characters on a phone or iPad?

French –Portraits

We are going to be learning about the names of different body parts in French. Can you create a portrait of yourself with all the parts labelled in French?

History- Romans in Britain

The Romans came to Britain in 43AD. They created a wall to separate their territory from the Celts. Can you research what it was like to live in Britain during the Roman times and create a report with diagrams?

Year 3

Home Learning Project

Spring 2

Romans in Britain, Quilling, Portraits, Light, Animation

Art-Printing

We are going to be looking at quilling this half term in Art. You could research how quilling works and try creating this with paint and paper.
