Maths

Gather different items from around your house. Can you sort them into colour groups? Take a photo to show how you sorted your objects.

Communication and Language

Look into a mirror and escribe what you can see - your eye colour, hair, anything special like freckles or a birth mark. Can you pull any faces – happy, sad, angry, surprised?

Literacy

Draw a picture of yourself and then write a simple sentence about what is marvellous about you. For example –

"I can run fast."

Understanding of the World

Look at baby photos of yourself. Can you talk about how you have changed? What is different from when you were a baby to the child you are now. Bring your photo in and share it with the class.

Reception Autumn 1

Home Learning Project

Marvellous Me!

These are **due** on Monday 19th October, 2026 and will be presented to the class.

UNICEF Rights of the Child

Name Poster

Design a poster for your name. You can decorate it with things you like, your favourite characters, food, colours, animals – things that represent you.

Expressive Arts and Design

Paint a picture of yourself or of your family. Can you label the picture by writing your name or the names of your family members?

PSHE

Draw or use photos to make a simple family tree. Can you label the members of your family?

Free Days Out Linked to Our Learning

Science Museum: Visit 'The Garden' (the basement interactive gallery specifically designed for children aged 3–6), where they can play with water, construction, and sensory zones.

Thorndon Country Park: Walk the Gruffalo Trail to spot wooden character sculptures, encouraging storytelling, physical movement, and personal reactions to familiar characters.
